

Hyper Left Hand Hammers

The bulroc range of Left Hand Hammers have been designed to suit the specific needs of the Ground Engineering Contractors where the use of conventional Top Hammer extension drill steel equipment becomes impracticable.

All DTH hammers traditionally operate with right hand rotation but to service these situations, Bulroc offer a range of Left Hand hammers. All the internal components are unaffected by the rotation of the hammer and so it is only necessary to replace the Chuck, Wearsleeve and Backhead as detailed below.

Alternatively, Bulroc offer complete Left Hand Hammers at a small premium price over the standard hammers.

Hammer	Chuck *	Wearsleeve	Backhead
Hyper 31 / DHD 3.5	HSH3135040LH	HSH3100LH	HSH313801MLH
Hyper 41 / COP 44	HSH4135091LH	HSH4100LH	HSH413801MLH
Hyper 51 / COP 54	HSH5135092LH	HSH5100LH	HSH513803MLH
Hyper 63 / COP 64	HSH6335093LH	HSH6300LH	HSH633803MLH
Hyper 81 / COP 84	HSH8135094LH	HSH8100LH	HSH813804MLH

* Chucks for other standard bit shanks may be available on request.
